Proceeds from the tournament will support summer youth programming in our community! As warmer weather approaches, we are thrilled to see things return to some semblance of normalcy, including summer camps and programming for kids in the Omaha Metro area. →

After two years of closures, camps are back in session; however, there is an immense need to fund safe, engaging and educational summer activities.

This type of programming provides basic necessities like meals, physical activity, education and social/emotional outlets to low-income children. Research shows that over the summer months, most youth lose an average of two months of grade-level equivalency in math, and low-income youth lose more than two months in reading achievement. Over time, summer learning loss contributes to a widening achievement gap between lower- and higher-income youth that results in lower high school graduation rates for low-income youth. COVID-19 has widened this gap between children and families who can and cannot afford summer camp.

As stewards of the community, let's help these children get the best head start for a new school year – please join us as City+Ventures presents our first-ever Texas Hold 'Em Charity Poker Tournament.

All proceeds benefit summer programs for inCOMMON, Heart Heroes, NorthStar and Boys and Girls Club South Omaha Branch.

Cash and other prizes will be awarded to players. No bluffing, spaces will fill up fast! Please RSVP [here](#).
